Notes

New Year's Day: We've done a series of these rides over the years with the original start and end in Bellevue to stop at a member's home for coffee and a cookie swap. In recent years the start-stop point was

near Coulon Park with a shorter South Lake WA and a longer full Lake. Participants have changed so this is an intermediate distance aiming for one ride. We no longer have a host volunteer for the cookie swap so maybe it will come back next year if someone wants to host a social gathering and COVID settles into a routine.

Experimental Cycling: Most people don't know how bicycles work. See the following so you will: <https://youtu.be/9cNmUNHSBac> On the other hand a lot of us are pretty familiar with this.

* **No Leader Tours** - Someone must record names of the tour participants and submit the list for mileage credit.
